

Student Data Journal: Term Grade Reflection

*You will do a **grade reflection** at the end of each grading period. This is not the unit reflection.*

1. Print out your grades for the current term from Skyward and paste it in your interactive notebook on page__.
2. Next, write a paragraph reflecting on your scores that includes the following key points:
 - a. What your score is currently
 - b. What you did to receive that grade
 - c. What you will do to improve your grade before the next grading period. Or, if you have a strong grade, discuss what you will do to maintain your scores at that level.
 - d. Give supporting details based on your personal performance and participation in class.
